

Subject: Disposal of Surplus Furnishings and Equipment
Effective: November 1, 1981
Revised: June 1994; July 1, 2001

1.0 PURPOSE

This policy aims to establish conditions by which a school district is to dispose of surplus furnishings and equipment.

2.0 APPLICATION

This policy applies to all school districts

3.0 DEFINITIONS

Surplus property means any property that is unserviceable, redundant, worn out or no longer required, but does not include school buildings or land.

Cumulative value of property means the before tax total value of an item or group of like items. For the purposes of this policy, the cumulative value would be calculated by multiplying the number of like items in the lot by the individual items' value. For example, if 45 student desks were valued at \$25 each, the cumulative value of this "property" would be \$1,125.

- 6.4 Reports of all disposals shall be made in writing by the Department of Education to the Department of Supply and Services.
- 6.5 Permission to dispose of individual equipment items in excess of \$1,000 per item must be obtained from Board of Management by the Department of Education on behalf of the district.
