Public Internet Access

This public-designated computer is equipped to offer **filter-free** Internet access for public use.

To protect personal information about patrons, the library takes measures to delete Internet browsing history daily, but retains computer sign-up information up to 30 days. Please be advised that Internet activity on this computer may be traceable to the user.

During school hours, this computer is set by default to "No Internet Profile". If you wish to use this computer for Internet access, please ask library staff for assistance.

After school hours, this computer is set by default to "Internet Profile".

Responsibility for a student or child's use of the Internet rests solely with his or her teacher, parent or legal guardian.

School Internet Access

This school-designated computer offers **filtered** Internet access for student and public use.

To protect personal information about patrons, the library takes measures to delete Internet browsing history daily, but retains computer sign-up information up to 30 days.

Please be advised that Internet activity on this computer may be traceable to the user.

Responsibility for a student or child's use of the Internet rests solely with his or her teacher, parent or legal guardian.
