

# **DOCUMENT “A”**

## **MINISTER’S DETERMINATION CONDITIONS OF APPROVAL**

Pursuant to Regulation 87-83 under the Clean Environment Act

May 11, 2009

File Number: 4561-3-1174

---

---

1. In accordance with section 6(6) of the Regulation, it has been determined that the undertaking may proceed following approval under all other applicable acts and regulations.
2. Commencement of this undertaking must occur within three years of the date of this Determination. Should commencement not be possible within this time period the undertaking must be registered under the *Environmental Impact Assessment Regulation* (87-83) – Clean Environment Act again, unless otherwise stated by the Minister of Environment.
3. The proponent shall adhere to all obligations, commitments, monitoring and mitigation measures presented in the EIA registration document dated September 18, 2008 as well as all those identified in subsequent correspondence during the registration review. Additionally, the proponent shall submit a summary table detailing the status of each Condition listed in this Determination to the Manager of the Project Assessment Section of the Department of Environment every 6 months from the date of this Determination until such a time as all the Conditions have been met.
4. The continuous pumping rate for the pumping well shall not exceed 63 m<sup>3</sup>/day (9.6 imperial gallons per minute (igmp)).
5. The maximum allowable short-term pumping rate for the pumping well shall not exceed 78.6 m<sup>3</sup>/day (12 igpm).
6. An automatic low level shut-off shall be installed in the pumping well and set at a depth of 15.0 m below the top of casing (btoc).
7. The proponent shall be responsible for any negative impacts to nearby private water wells that may be adversely affected due to water usage at the facility.
