

Electrical Inspection Bulletin	Bulletin No.	165 16(7)-1
	Effective Date:	April 19, 2021
Wiring Permit ID Sticker	Page	1 of 1

NB Regulation 84-165 16(7) A copy of the wiring permit or the special wiring permit and the identification sticker shall be posted by the electrical contractor or electrician-in-charge in a conspicuous place and shall not be removed until all inspections have been completed.

Effective **April 19, 2021**, Technical Inspection Services will no longer provide ID stickers and it will be the responsibility of the electrical contractor to provide a permanent sticker that will attach and withstand weather conditions until such time electrical inspections and the supply authority connection are completed.

Electrical contractors shall be required to install their own permanent ID sticker to the outdoor meter box or in cases with no outdoor meter box, the ID sticker shall be installed on the main service switch.

Electrical contractor ID sticker shall meet the following requirements:

- 1) ID sticker shall be permanently attached to the meter box and withstand weather conditions.
- 2) Electrical wiring permit number shall be marked on the ID sticker with a permanent marker or by using a personalized ID sticker or a label maker. The label shall remain legible until electrical inspections and supply authority connection are completed.
